

# Hot Air Balloon Retrospective

## How it works

- As the moderator, set a 3-minute timer and invite the team to share their thoughts on the stickies placed in the Stormy Clouds section. Encourage participants to sign their stickies to enhance the effectiveness of the next step.
- Set a new timer for 8 minutes and give everyone the chance to explain the content of the stickies. If there are too many stickies to discuss, start this phase with a voting session to choose the more relevant issues.
- Repeat this process for the other sections: Hot Air, Sandbags and Sunny Skies.
